Hazardous Construction &
Demolition wastes

Promotes environmental
sustainability

Minimises environmental impacts

Dunton operates this facility under licence from the Environment Agency. This waste treatment centre offers a sustainable alternative to landfill for a variety of hazardous waste streams, including:

- Construction & demolition wastes
- Contaminated Soils.
- Soils impacted with asbestos and ACMs
- Oily sludge
- Street-cleaning residues.
- Hazardous waste from waste management facilities

The use of our most innovative technology ensures we deliver significant financial and environmental benefits including:

- Cost effective solution
- No requirement to pay Landfill Tax
- Zero program delays
